

NOTICE TO RESIDENTS
Township Road 394 Paving Project
September 9, 2026

The Rural Municipality of Corman Park will be completing paving work on Township Road 394, located along the north side of Osler. Work is anticipated to begin September 14, 2026 and continue for a number of weeks.

As a result of this work, there will be temporary changes to access at the northwest end of Town:

- **Access to 1st Street from Township Road 394 will be closed for the duration of the project.** As 1st Street forms part of the Town's designated heavy haul route, heavy truck traffic will need to use an alternate route during the closure.
- **Service Road/Osler Road will remain open for the majority of the project.** Access at this location will only be closed on the day paving occurs at that intersection. The Town has not yet been provided with the specific date for this closure.

If you receive deliveries or regularly have trucks accessing your property using the Town's heavy haul routes, please advise your drivers, suppliers and delivery companies of the upcoming closure so they can plan accordingly.

Detour and traffic control signage will be in place to direct traffic during construction. The Town will provide additional information as it becomes available.

We appreciate residents' patience and cooperation while this work is underway.

Town of Osler
